Assessment

This programme consists of two main types of assessments:

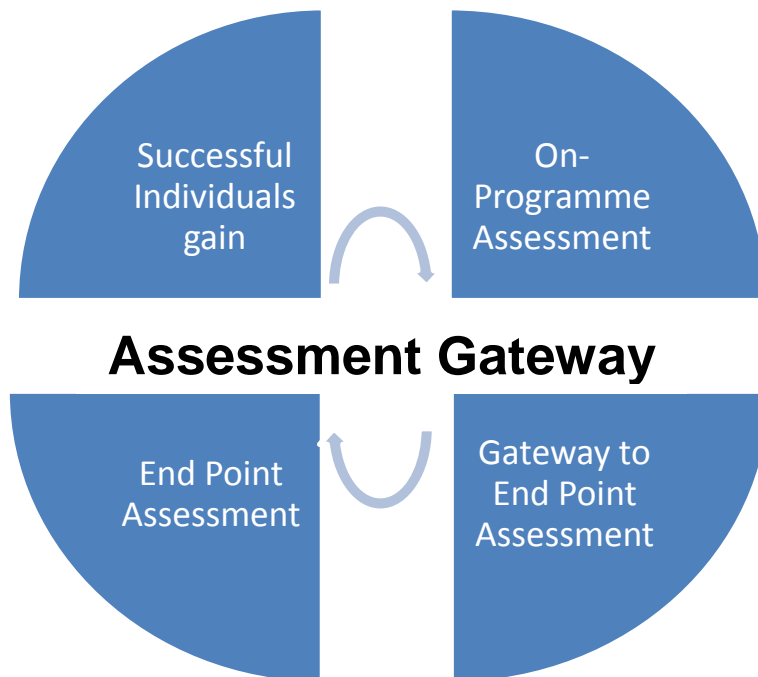

On-programme assessments

&

End point assessment (EPA)

The on-programme assessment will involve you, (the employer) and FSTP (your training provider). This assessment will involve each participant developing a portfolio that demonstrates their application of learning and development activities within the workplace.

The assessment is ongoing throughout the programme and apprentices will be provided with 360-degree feedback throughout their development of the portfolio.

Assessment

End Point Assessment

The first thing to note is that your chosen training provider cannot deliver your end point assessment. This must be done through a totally separate organisation.

The choice of which End Point Assessment organisation you decide to use is yours, but we can certainly offer guidance as to where you can find the details of approved organisations.

It is our aim to make sure that you work with an End Point Assessment organisation that supports your business, the participants and the job role, all to provide you with the confidence that the training and qualifications are best suited to your objectives.
